June 11, 1996

TO: Minerals File  
FROM: Lynn Kunzler, Senior Reclamation Specialist *LK*  
RE: Site Inspection, David Penney, Lucin Variscite, S/003/034, Box Elder County, Utah

Date of Inspection: June 4, 1996  
Time of Inspection: 11:30 a.m.  
Conditions: Clear, hot and breezy  
Participants: Lynn Kunzler, DOGM

Purpose of Inspection: To evaluate the site while in the area

This site has not changed since my last inspection in 1995, with the exception that all the equipment and tanks have been removed from the site. There are three small boxes on the site where it appeared to be where he put his stone to sort it before hauling it off. There has been no activity at the site for quite some time. Vegetation, mostly weedy species, is growing on most of the dumps and the road areas around this site. Photos were taken of the site.
